By The Numbers

- **50,000 Square Foot Facility**
- **Located on over 7 Acres**

"With the precision machining work and high-technology products that Ariel manufactures, this new facility is a perfect fit at the Aerospace Center. I look forward to seeing Ariel thrive in Licking County and continue to realize the full potential the company has in the energy sector. We know, Ariel's success is our success"

Ariel is the newest addition to the Central Ohio Aerospace and Technology Center

Ariel Corporation announced they are purchasing Southgate's new building on Kaiser Drive. The Heath-Newark-Licking County Port Authority sold Southgate the 7 acres in the Central Ohio Aerospace and Technology Campus. The 50,000 square foot building was originally built on speculation by the Southgate Corporation.

Ariel Corporation is the world's largest manufacturer of separable reciprocating gas compressors. The compressors are utilized by the global energy industry to extract, process, transport, store, and distribute natural gas from the wellhead to the end-user. Ariel also provides specialized API-618 reciprocating compressors for the process industry.

As the newest addition to Aerospace Center and "Heath's Hot Corner", Ariel is a perfect fit. Ariel uses strapping from Samuel Strapping, xperion builds CNG fuel tanks, and MISTRAS will be testing their metals. All of these companies are located within the Aerospace Center at James Parkway and Kaiser Drive.
