Tune in to Base Radio

OnTheBase.com goes multi-media with the introduction of a new feature—an online radio station. Look for a new audio clip at least once a week ranging from the day-to-day (how to use the online auction system) to the unusual (what types of flowers are planted on the patio). This week: Here comes another parking lot blitz!

Weather Station

With local schools opening and local pools closing in the coming weeks, it's hard not to think about the end of Summer and a change of weather. Not surprisingly, the on-Base weather station is a very popular feature when the weather is less predictable. Be sure to get reacquainted with the realtime weather information available at OnTheBase.com.

Roadway Hits 75% Completion Mark

A major roadway extension project, the first major infrastructure improvements to the land that makes up the COATC South Campus in over 50 years, is now 75% complete. The road bed passed a test today. Paving work is expected to be underway next week.

Watch for St. Rt. 79 Signage Soon

Heath City approval and design in hand, an entrance sign at Kaiser Drive and St. Route 79 is slated to be installed next month. The new sign will closely mimic the COATC signage visible off of Irving Wick West at the entrance to the Base Campus.
