## 10-Year Capital Plan Review Begun

As has been its pattern for some time now, the Port Authority has engaged in an update to 10-year capital plan. Over \$11.6 million in improvements are expected by 2019. The plan also includes an incorporation of the Port Authority's Revenue Diversity Plan which predicts up to \$140 million in projects in the next 10 years. Public input is sought on the plan, including an input session on April 7 at 2 p.m. at the Port Authority office.

## Roadway Project Impacts Increasing

The \$2.9 million roadway and bridge project is about to get more visible and the impact on the traveling public is going right along with that. Look for detours for east-bound traffic on Irving Wick to happen very soon and, as early as the third week of April, look for parking lot closures on the east side of The Base. As always, track the progress of the project online at [FeelTheImpact.com](http://FeelTheImpact.com).

## Stimulus Task Force States Priorities

The Port Authority, fulfilling its community role as providing leadership in economic development, has facilitated and organized a task force to rank and prioritize the various projects sought under the federal stimulus bill. In concert with the Chamber and County Commissioners, the Port Authority has helped a 21-member Task Force examine more than 300 projects. The Task Force published its second of two infrastructure priority lists today.
