## 15-Year, 50-Year Celebration Set

Mark your calendar for Saturday, October 8. Details will soon be published on the 15-Year, 50-Year Celebration and Open House at the Aerospace Center. The event will include an opportunity to see on-site produced items as well as family-friendly activities. The event is both a celebration of 15 years since privatization of the base and a kick off to the marking of 50 years since guidance system repair and metrology came to Heath.

## Clean Room Now Available

Overshadowed in the July ribbon cutting and building dedication was the completion of the ISO7 (Class 10,000) clean room built in the clean room bay of the Horton Building. The 1,000 s.f. clean room is the first of up to four modules feasible in the new space. The clean rooms are being marketed to manufacturers doing business in microelectronics, nanotechnology, life sciences, and medical equipment.

## Projects Never Wane

Completion of the next leg of the Heath bike path connection is wrapping up while work is also underway to connect the east side of the campus to Heath sanitary sewers directly. Several other projects await yet this year as the construction season begins to wane.
