Horton Building Goes Green

It's official! The Horton Building received the distinction of becoming only the second building in Ohio under stringent U.S. Green Building Council guidelines for core and shell buildings to attain LEED® Certification. The Port Authority Board received official word on the designation at yesterday's Board of Directors meeting. The milestone makes the building the first new, commercial office building in Central Licking County to receive this eco-friendly designation.

Think Clean Room, Think Heath

With five clean room tours in the past month, the message is starting to get out. The Port Authority wants developers and real estate brokers to think of the Aerospace Center when they think clean room.
