D.C. Fly-In Cements Relationships

April 2nd, the Port Authority led a contingent to visit with Ohio members of Congress with a message on the military value of the Aerospace Center. The day saw contact with 10 of the 18 Ohio Capitol Hill offices, including face-to-face with Sen. Brown, Rep. Tiberi, and Rep. Stivers. A part of the contingent also visited with White House staff.

Amazing Precision Capabilities

The ability to detect a seismic event an entire hemisphere away. That sort of capability deserves, at least, an occasional spotlight. See the charts provided by UTC Aerospace Systems' Heath facility that show how their precision measurement equipment picked up two earthquakes in Chile on April 1 and April 3. That's amazing.

When Will They Blossom?

Every Spring, the pear trees which line the entryways to the Base Campus of the Aerospace Center bloom. Last year, April 17 was the peak of the blooms. It's anyone's guess when this year's best photo op will occur, but be assured the Port Authority's on-line message center will capture the moment. Bookmark the message center to be the first to know.
