20-Year Anniversary Spotlited

May 18, 1995 was the day the agreement was signed between Heath, Newark, and Licking County that created the Port Authority. In recognition of the 20th Anniversary, the Port Authority held a Customer Appreciation Celebration complete with cookout and Segway tours of the campus.

The tours highlighted the things that had changed in 20 years.

The week was followed up with a front page story in the Sunday edition of *The Advocate* with a reflective look back and an upbeat look forward.

Attorney General DeWine Visits

In a repeat of previous visits in the past 20 years, Attorney General Mike DeWine toured the genetic testing lab for personalized medicine tenant, Firefly Diagnostics/Chromocare. The tour garnered news coverage from WNKO, WHIZ-TV, and *The Advocate* for the lab which will be officially launching their testing kits next month.

Drone Photos, Videos Published

Thanks to the techs at Licking County Planning, the Port Authority now has bird's eye view photos and videos of the campus from a drone. The photos uniquely show off the progress being made on the campus with \$18 million worth of capital projects under construction, including four new buildings this year. The photos will be published on the Facebook page over the coming week.
